

Dr. Suzuki completed his Ph.D. degree from the Neurosurgery Department in Graduate School of Medicine at Mie University in Japan in 1997. After graduation, he is working in the University Hospital as a neurosurgeon. Dr. Suzuki is also an active neuroscientist and has more than 20-year experiences in preclinical research, primarily investigating subarachnoid hemorrhage. On July 1st, 2012, Dr. Suzuki was appointed as the Chairman and Professor of Neurosurgery Department. He is also a recipient of many honors and awards for research excellence in his career, including three medical society awards.
